

## Artificial Cricket Pitches

V Sports in partnership with Exclusive Leisure Limited who are specialist installers of the Cricket Weave Artificial Grass Cricket Pitch, having attained ECB approval for two pitch systems.

Exclusive Leisure Ltd has specialised in the supply & installation of artificial cricket pitches for over 30 years.

Our activities cover the whole of the UK & are recognised by the Sports Governing bodies. We also export our products to Europe and beyond.

Surfaced with our Cricket Weave artificial grass, the pitch is designed for all weather cricket facilities including full size 30m long match wickets and practice net areas with protective cages.

We can supply only and/or carry out complete installations anywhere in the U.K. Clients include County Cricket Clubs, Private Clubs, Homes, Schools & Local Authorities.

Please feel free to ask for references.

A feature of the company's success is due to each & every contract being carried out by our own expert staff using only the highest quality of materials

Cricket Weave is a woven Wilton carpet with a pile height of 'grass' proven to be ideal for cricket at all levels. Laid on a choice of bases, comprising either Hard Porous material, or the Exclusive 'T' Base (bituminous macadam), the 'grass' is stabilised against ultra violet and atmospheric degradation. It is unaffected by extreme weather conditions and can remain open to all climatic elements all year round.

Full length net areas or separate batting and bowling ends are available with or without anti-vandal perimeter fencing.

An after sales maintenance service is offered which helps ensure that Exclusive Leisure Limited installations remain the Ultimate All-Weather Synthetic Turf playing surfaces.

For practice areas a permanent net & cage facilities, whether for single, double or multi-play systems can be installed.

**EXPERIENCE IS PARAMOUNT - A PROVEN ASSET OF EXCLUSIVE LEISURE LIMITED**

### **Artificial Grass**

Exclusive Leisure supply and install the exclusive NO-MO Artificial Grass Surface which will produce an instant lawn. This can be constructed from new or laid on an existing lawn using a unique foam base with our artificial grass.
