

**Maths Tuition?
Cricket Coaching?
We Combine The Two!**

**Deepen your maths understanding
and improve your cricket game**

Follow Us @qedsport

Background: Qualified mathematics secondary teacher with 2 years experience, Maths and Sports Science BSc at Loughborough University, 10+ years cricket coaching experience, minor counties and county 2nd team cricketer. Selected in the National Premier League XI 2016 & 2017

Alex Phillips

I'm excited to combine the two things I love, maths and cricket, and get students enthusiastic about them too!

Maths Tuition? Cricket Coaching? We Combine The Two!

- More interested in playing sport than doing your homework?
- Do you learn in a different way to how you're being taught?

Step out of the limitations of the classroom and enjoy learning maths in a unique and experiential way whilst improving your cricket game. Our summer camp is tailored to coaching cricket skills and teaching the KS3 mathematics curriculum. The camp is for students in years 7-9 and covers all 4 strands of mathematics: number, algebra, geometry and statistics. Instead of being one step behind the teacher, get yourself one step ahead through cricket! And have fun!

Why QED Clever Cricket?

Active learning is how students learn best! Each topic has been carefully designed alongside cricket skills development/games and teaches the mathematics curriculum. Each session has an accompanying worksheet for the players to aid their learning and use to complete their QED Clever Cricket Workbook. Players also improve batting, bowling and fielding skills and technique.

Times, Dates and Venues

Princethorpe College August 6th-10th (indoors)

#PrincethorpePanthers

Ashlawn School August 13th-17th (indoors)

#AshlawnAlligators

10am to 1pm every day.

Limited spaces – 12 places per course

Course Content (all days 10am-1pm)

Each session is carefully designed to practically demonstrate and teach the 4 strands of the Key Stage 3 mathematics curriculum at the same time as developing key cricket skills.

Monday - A Sporting Chance

- Probability
- Statistics

Tuesday - Cricket from Every Angle

- Geometry
- Measures

Wednesday - The Winning Formula

- Formulae
- Algebra
- Graphs

Thursday - Personal Best

- Number skills: multiples, factors, primes, fractions, decimals, percentages.... and more!

Friday - No Boundaries

- Sequences
- Parabolas
- Equations of Motion
- The World Cup Match!

We cater for all levels of cricket and maths confidence. We understand some children love maths and some find it hard.
